

SoilCares Scanners in Kenya:
Scanning for Success Project

First 165 Scanners

The Partnership
SoilCares Foundation partners with Rabobank Foundation and SoilCares Africa to reach 75.000 smallholder farmers with soil testing by implementing the first 165 soil Scanners in Kenya.

The SoilCares Package
Be the first to use this innovative soil testing technology and lets learn together how to create the biggest impact. You will receive the Scanner package at the cost of €500 (real value €2.750).

The SoilCares Package contains:
- 1-year usage of the Scanner
- Training and materials

Earn your Scanner

You can become the proud owner of the Scanner. After one year you can obtain your Scanner at a reduced price depending on the number of scans reached. The more scans you make, the lower the costs:

- 400 Scans made = €1000 per Scanner (excluding VAT)
- 500 Scans made = €750 per Scanner (excluding VAT)
- 600 Scans made = €500 per Scanner (excluding VAT)
- 700 Scans made = €250 per Scanner (excluding VAT)
- 800 Scans made = €0 per Scanner (excluding VAT)
